

Call for Papers – Geomatica

Special Issue on “Canadian Geodesy & Geodynamics in the 21st Century”

All topics related to research in physical and satellite geodesy as well as geodynamics in Canada are welcome. The aim of this issue is to highlight the ongoing research in these areas with a particular emphasis on studies of Canadian regions. It also provides an opportunity for research presented at the Canadian Geophysical Union Annual Meeting to be published (although this is not a requirement).

Submission guidelines

Papers should be submitted to via email to editgeo@magma.ca. Instructions to authors for Geomatica journal papers can be found at <http://www.cig-acsg.ca/english/geomatica/>. Papers should not exceed 9000 words. Prospective contributors can contact Georgia Fotopoulos (information provided below) to discuss potential contributions.

Important deadlines

Submission of manuscripts: September 1, 2010

Notice of acceptance: December 1, 2010
