Avant-propos

Harold E. Jones

Rédacteur - Index de 1988 a 1999

Les revues de l'Association canadienne des sciences géomatiques et de ses prédécesseurs ont été publiées de façon continue et constituent, par conséquent un historique de la profession élargie de l'arpentage et de la cartographie au Canada et des intervenants qui y ont pris part. Cet index cumulatif couvrant la période de 1988 a 1999, d'abord du **CISM JOURNAL** ACSGC de 1988 a 1992 et ensuite de *GEOMATICA* de 1993 a 1999, est le quatrième d'une série d'index cumulatifs de ces revues publics périodiquement. Le premier index couvrait la période de 1884 a 1955 (72 ans), le deuxième, de 1956 a 1969 (14 ans), et le troisième, de 1970 a 1987 (18 ans). On espère que cet index (de même que ceux publiés au préalable) aideront ceux et celles qui s'intéressent aux sujets techniques, de même que les gens qui s'intéressent généralement a la vie des intervenants de l' Association et a cette dernière.

Tout comme pour les index précédents, les nombreuses critiques de livre sont catalogues par ordre alphabétique, et séparément selon le titre de l'ouvrage. On indique le nom des auteurs des critiques à l'index principal.

Forword

Harold E. Jones

Editor—1988-1999 Index

The continuously published journals of the Canadian Institute of Geomatics and its predecessors constitute a history of the broad profession of land surveying, mapping and charting in Canada and of the people involved in it. This cumulative index for the period from 1988 to 1999, for the CISM JOURNAL ACSGC from 1988 to 1992 and for GEOMATICA from 1993 to 1999, is the fourth in a series of periodically published cumulative indexes of those journals. The first covered the period from 1884 to 1955 (72 years), the second from 1956 to 1969 (14 years) and the third from 1970 to 1987 (18 years). It is hoped that this index (along with the previously published indexes) will be useful to those interested in technical matters as well as to those interested generally in the lives of the people involved and of the Institute.

As with the preceding index, the large number of book reviews are indexed separately by book title. The authors of the reviews are included in the main index.
